

Archer F1 Outline Specification

Kiosk Solutions for Public Access Areas

Incorporating:

The Archer F1 Kiosk is designed when public access to non-touch friendly information is required. The Kiosk incorporates an IP65 keyboard, trackball and designed specifically for semi-secure environments and offers a robust quality kiosk solution. The Archer F1 range comes with a rugged kiosk PC and benefits from virtual silent operation and minimal power consumption. The unit is manufactured to the customer's specific colour and finish. The Archer kiosk range comes with a wide choice of options from Touchscreens, thermal printers to a cash acceptance system. The unit has already been adopted by a number of organisations in the local government, health and retail marketplaces.
